## **INTER-OFFICE MEMO**

**TO:** Information Services Policy Committee

**FROM:** Doug Thomas, Information Services Manager, Information Services

**DATE:** February 12, 2008

**SUBJECT:** Monthly Report

---

### **SYSTEMS DEVELOPMENT PROJECTS**

**1. InterLinc eGov**

Chris will put the final touches on the Lancaster County Disaster Registry by the end of the month. We have and will continue to demonstrate the system as requested. The state wide demonstration via a closed circuit broadcast from St. E's this month was well received. The LFR demonstration for all the Asst. Chief's was hampered due to a very slow PC that they supplied. We hope to reschedule that demonstration in the next week or two. We have also been asked to inform CIC when this goes live so they can coordinate a media release.

**2. EnterpriseOne (PeopleSoft)**

Conversion efforts continue on version 8.12. Conversion planning and activities began on 06/01/08 and are now targeted for full implementation by March 09. Progress has been made in this demanding effort since a new project leader was assigned at iXtend.

**3. RMS (Rbase Replacement)**

Nick successfully put this system into production in January. Strong positive feed back has been received by both records center staff and customers. This will be the last report on this project.

**4. Property Protest**

Nick is working on the upgraded Property Protest System that will allow the protester to schedule their own hearing and complete the entire process online. (Electronic Signature).

## **OPERATIONAL**

The IBM z/890 Enterprise Server prime shift utilization was 57.90% in January compared with 57.00% in December. There were 2,634,207 CICS transactions executed which included 517,533 Web transactions.

The City Finance JDE AS/400 prime shift utilization in January was 12.18% compared to 11.55% in December. Disk utilization is 74.69%.

The County PeopleSoft AS/400 prime shift utilization in January was 8.73% compared to 7.50% in December. Disk utilization is 65.65%.

The CJIS Alpha Server prime shift utilization was 75.06% in January compared to 60.29% in December. In December the TEST/Disaster Recovery server was configured to duplicate the new production server. We need to get a generator power receptacle installed on the east wall at Water and move a half rack cabinet from the Health Department.
